DETAILED ACTION

1. This Office Action is in response to the applicants' communication received on March 13, 2007.
2. Claims 1-21 are presented for examination.
3. The applicants have amended claims 1 and 14 in the amendment received on March 13, 2007.
4. Applicants' arguments with respect to claims 1-21 have been considered but are deemed to be moot in view of the new grounds of rejection.

Claim Objections

5. Claims 1, 8, 13, 14, and 18 are objected to because of the following informalities:

Claims 1, 8, 13, 14, and 18 recite a "time value is used to quantify the impact of a performance problem", but the claims do not recite and/or include a step that suggests what happens as and end result of the time value being "quantified". It appears that these independent claims should conclude with an additional step to state what finally happens to the time value as a result of the time value being quantified. This claim limitation including "time value is used to quantify" appears to suggest a transformation and/or change(s) in the claimed data. But, the claim does not mention what happens to the data as a result of the transformation and/or change(s).

Also, claims 8, 13, and 20 should be further amended to comprise claim limitations which would be consistent with claims 1 and 14. Claims 1 and 14 recite

Art Unit: 2167

"detecting when wasteful operations are being performed in the database". Claims 8, 13, and 20 should recite "performed in the database" to have the same consistency within the claim limitations that are presented in claims 1 and 14.

Therefore, claims 2-7, 9-12, 15-17, 19-21 are also objected to because these claims are dependent upon the above objected base claims.

Appropriate correction is required.
